FLOWING ORGANIC FORMS, CAPTURED AND REFINED

HAMANA, KITAURA, NAKAUMI

Inspired by the flow of water and geological formations, NAKAUMI's three designs work harmoniously together or individually offering timeless patterns inspired by Mother Nature. This contemporary collection of natural fibre blends brings a soothing, sensual tactility to a space.

Design: NAKAUMI is a plain cotton weave with a digitally printed marble motif. This combination produces a sophisticated shine and highlights the intricate detail of this organic design. KITAURA features a chunky, soft touch chenille yarn with a digital print overlay. This creates a distressed, textural finish inspired by layered rock formations. HAMANA's jacquard weave brings coloured texture to another level, creating a 3D, embossed look and contrasting depth.

Application: Delectable and dual-purpose, NAKAUMI makes a perfect statement with drapery and cushions. KITAURA adds soft tactility to this collection, ideal for statement upholstery, lampshades or cushions. HAMANA's embossed texture brings a beautiful base colour to work your scheme around, conjointly adding splashes of tantalizing coloured texture. Paired with one another our NAKAUMI collection harmonizes and enhances, bringing the beauty of nature into your space.

Colourways: This collection of contemporary yet timeless designs come in four trending colourways. Chairö plays on the neutral and natural earthy tones. Nasu offers the richer hues of amethyst stones and jewels. Akua & Konsho bring blue and aqua water tones, capturing NAKAUMI's natural flow and organic forms.

Rating: NAKUMI, KIRAURA & HAMANA are an Oeko-Tex certified collection of natural blend fabrics. This evocative, nature-inspired range compiles high-end layered statements, through subtle textures, organic colour and timeless patterns to suit a multitude of sophisticated settings.

DESIGN	USAGE	COMPOSITION
