SECONA

ALONG THE SHORELINES, BESIDE THE LAKES – SECONA by Warwick

Lifted by the allure of materiality, simplicity and elegance, SECONA is a naturally textured design inspired by sun-drenched coastal living and light-filled alfresco spaces. Grounded by its organic structure, SECONA brings an effortless sense of warmth and ease to contemporary interiors.

- **DESIGN:** SECONA features a subtle sheen that reveals tonal variation across the surface. A delicate multi-toned yarn creates a hand-dyed appearance, while softly irregular yarns add depth and organic character throughout. Designed to complement airy interiors, from coastal homes to lakeside retreats, SECONA frames light-filled spaces with an effortless sense of calm and material warmth. Its balanced blend of natural and synthetic fibres combines everyday practicality with a soft, richly textured hand feel.
- **APPLICATION:** A tightly woven washable plain crafted from a blend of natural and synthetic fibres, SECONA combines a refined aesthetic with enduring durability. Designed primarily for drapery, it also has a dual-purpose construction suitable for heavy commercial application. Continuous in structure, SECONA is ideal for architectural installations with its weighty, soft handle creating a fluid drape and opportunity for voluminous pooling.
- **COLOURWAYS:** SECONA'S palette is designed for versatility and timeless appeal, drawing inspiration from the tonal subtleties found in nature. Absent from highly saturated colour, the collection embraces soft dusty hues such as Dew, Sandstone and Taupe, alongside sun-faded tones including Straw, Mocha and Russet. These understated shades pair seamlessly with sheers for a refined, elevated finish, while the softened palette also provides a considered foundation for layering bolder tones across upholstery and accessories.
- **RATING:** Oeko-Tex certification with an AS1530.3 fire rating.
