

WARWICK

ALONG THE SHORELINES, BESIDE THE LAKES – SECONA by Warwick

Defined by materiality and simplicity, SECONA is a naturally textured design inspired by coastal living. Grounded by its organic structure, SECONA brings effortless style and ease to contemporary interiors.

- **DESIGN:** SECONA features a subtle sheen that reveals tonal variation across the surface. A delicate multi-toned yarn creates a hand-dyed appearance, while irregular yarns add depth and organic character throughout. Designed to complement light-filled interiors, SECONA frames spaces with a sense of calm and material warmth. Its balanced blend of natural and synthetic fibres combines everyday practicality with a soft, richly textured hand feel.
- **APPLICATION:** A tightly woven washable plain crafted from natural and synthetic fibres, SECONA combines a refined aesthetic with durability. Designed primarily for drapery, it also has a dual-purpose construction suitable for heavy commercial application. Continuous in structure, SECONA is ideal for architectural installations with its weighty, soft handle creating a fluid drape and opportunity for voluminous pooling.
- **COLOURWAYS:** SECONA'S palette is designed for versatility and timeless appeal, drawing inspiration from shades found in nature. Absent from saturated colour, the collection embraces dusty hues such as Dew, Sandstone and Taupe, alongside sun-faded tones including Straw, Mocha and Russet. These understated shades pair seamlessly with sheers for a elevated finish, while the softened palette also provides a considered foundation for layering rich colour across upholstery and accessories.
- **RATING:** Oeko-Tex certification with an AS1530.3 fire rating.
