

WARWICK

AN AUSTRALIAN TEXTURE TO MATCH THE ESSENCE OF HOME – KIAMA by Warwick

Relaxed and inviting, KIAMA is an Australian made upholstery plain, boasting a yarn dyed plain weave with a two-toned aesthetic. This transitional texture is featured within the Australian made ESPERANCE collection for those seeking patterns with coordinating tones. Dynamic in nature, it is suited to both domestic and general commercial interiors in a plethora of schemes, from cosy country cottage through to the modern urban or contemporary coastal styles.

- **Design:** Named after a beautiful Australian seaside town and popular holiday destination, KIAMA draws inspiration from the relaxed nature of coastal living with its two-tone character. The warp yarn of this design is a subtle neutral colour that is consistent across all hues, giving it a softer aesthetic and a more natural and relaxed casual style. The weft yarn brings in a cornucopia of colours across the range, from fun and playful to calm and nature inspired, giving KIAMA it's versatile and adaptable mood.
- **Application:** With a dry, soft and gently textured handle, KIAMA is perfect for a multitude of upholstery applications, from small-scale cushions, ottomans and chairs, to sumptuous larger scale sofas. Australian made, fire rated and Oeko-tex certified, along with Halo easy-clean characteristics, KIAMA can easily be used in both residential and general commercial spaces to achieve any desired aesthetic.
- **Colourways:** Expanding on the colour-line offered in our ESPERANCE collection, the KIAMA range has 20 diverse and adaptable colours in its entirety. Calming neutral tones can be found in Fog, Oatmeal and Taupe, while Fern, Olive and Mocha bring some soft nature inspired colour. Trending hues of Mallard, Blush and Terracotta suit contemporary schemes, and Jade, Surf and Melon bring a bold pop to refresh and invigorate.
- **Rating:** With general commercial durability, Oeko-tex certification and Halo easy-clean capabilities, this fire rated Australian made fabric can easily be integrated into any interior scheme, from playful commercial spaces to a relaxed home environment.
