PIRRO

CASCADING ELEGANCE WOVEN WITH THE RHYTHM OF NATURE

Inspired by the biophilia philosophy, where connection to nature and its essence elevates well-being and harmony, PIRRO aims to blur the distinction between outside and in, evolving with a raw and earthy interpretation that flows with the calming energy of the natural world.

Design: PIRRO'S yarn-dyed textural quality creates a relaxed, approachable feel that enhances the comfort of each space it is in. The construction results in a beautiful plain fabric that features a fancy slub yarn, creating a tactile experience that is raw and quietly intriguing.

Application: Whether covering large windows in a modern living room or adding a layer of privacy in a bedroom, PIRRO'S rustic elegance can be used on its own or layered for a more unique look to diffuse direct light beautifully.

Colourways: PIRRO showcases rich earth-based tones alongside essential natural shades. Warm hues like Canvas, Linen, Fossil, and Fawn suit neutral colour schemes, while Slate and Mineral bring cooler, dramatic tones. Mahogany leads as an emerging trend colour, with Ochre, Linseed, and Sage offering colour-rich alternatives.

Rating: Expertly crafted to provide customised privacy for interiors while being free from harmful substances with Oeko-Tex certification.

WORKROOM NOTE: Delicate in nature, PIRRO needs to be handled with care and is best suited by puddling to compensate for potential dropping due to natural fibre content.

DESIGN	USAGE	COMPOSITION	WORKROOM
PIRRO	Drapery	57% Linen 31% Wool 8% Cotton 4% Nylon	Puddling preferred
