

WARWICK

TROPICAL FEVER – Tropicana by Warwick

Overview: A designer touch to brighten your interiors, Warwick's new release TROPICANA's free flowing, large-scale foliage and abundant blooms enrich any design scheme with a touch of vivid artistry. A washable pure cotton weave with a modern, decorative design is a confident new arrival using painterly style and vibrant contrasts of tropical colour to enliven a space.

- Inspiration: Bringing catwalk fashion to interior design, TROPICANA interprets and transitions the tropical trend to bring a naturally bright burst of style indoors.
- Application: TROPICANA is an uplifting addition to any interior. Its washable qualities and painterly flow enhance a versatile fabric used across drapery, upholstery, slip wash covers, cushion accents and designer-style bedspreads.
- Design: Hibiscus flowers, palm fronds and tropical ferns are depicted in large-scale digital print using a distinct, watercolour technique.
- Colourways: An animated colour palette is pared back with washes of watercolour and tonal variation. The collection covers a tropical colour spectrum, from the modern moody greys and inky accents of Natural, to the refreshingly cool green and blue tones of Lagoon and the vivid hibiscus highlights of Flamingo.
- Rating: A premium washable quality, 100% natural fibre product for both drapery and general domestic use. Certified under the world leading OEKO-TEX Standard 100.
