## AN EXOTIC, BOTANICAL PARADISE - ARUBA by Warwick

**OVERVIEW:** Get lost in the exotic, botanical paradise of ARUBA. A bold, evocative and colourful Warwick Naturally collection, ARUBA is perfect for creating a fun, yet, nostalgic and sophisticated aesthetic suited to a myriad of interior styling possibilities. This beautifully textured cotton and linen quality is dual-purpose making it suitable for drapery, as well as residential and general commercial upholstery for a modern, relaxed look.

- **DESIGN:** ARUBA is a transitional and contemporary botanical leaf print inspired by a paradise island with hints of tropical wildlife. Its detailed screen-printed design borrows from a collection of styles such as art deco, nouveau and nature, and can be used to create stunning drapery and statement upholstery. Designed and hand painted in the Melbourne studio, ARUBA's beautiful watercolour artwork is brought to life on its dry textured and durable slub yarn base cloth.
- **APPLICATION:** ARUBA is a versatile and adaptable texture that can be styled with contrasting fabrics to achieve the desired look. Paired with velvet, it can create a sophisticated art deco aesthetic, or styled with a natural fibre for a more relaxed result. Its flattering design and variety of colourways allows ARUBA to be effortlessly used for different furniture applications with a whimsical mood. Whether it's creating statement furniture pieces or elaborate drapes, this collection is a great way to incorporate print and colour into a traditional or contemporary space alike.
- **COLOURWAYS:** In five sophisticated colourways, ARUBA offers new exotic botanicals with contrasting backgrounds. Forest is a classic combination of indigo blue and natural greens on a relaxed linen base. Lagoon features a midnight blue base with fresh green tones and a pop of pink, while Night offers a modern and contemporary deep black background with pastel hues of lilac and seafoam, grounded by khaki tones. Army brings a subdued tropical khaki green option with a subtle grey undertone that creates a camouflage effect with pops of aqua, lilac and burnt orange. And lastly Desert, a warmer option of clay and terracotta, mixed with honey and teal tones.
- **RATING:** A Warwick Naturally fabric, ARUBA is a durable exotic fabric that can be used for both decorative drapery and lively upholstery of any scale. ARUBA's embracing print enlivens spaces and creates a nostalgic aesthetic whether being applied to residential or general commercial interiors.
