

WARWICK

LUXE & GLAMOUR – ATOMIC by Warwick

Overview: A tempting sheer with a chic modern edge, ATOMIC is a contemporary range with a natural fibre blend balanced by a glamorous metallic yarn to create an aesthetic that is sleek, refined and sophisticated.

This delicate sheer offers a dry two-tone finish and continuous self-weighting characteristics that allow for effortless draping across feature windows and expansive architectural frames. Available in a concise colour palette of urban neutrals that use metallic highlights to catch and reflect the light, ATOMIC is an ideal match for interiors seeking a rich and luxurious style.

- **Application:** Boasting a modern colour palette of sleek neutrals, this 296cm wide width sheer is complemented by a luxurious metallic yarn to create a lustrous aesthetic perfect for modern interiors. A lightweight quality that encourages a high-end feel, ATOMIC offers continuous self-weighting qualities for effortless draping for any environment.
- **Colourways:** Light, soft neutrals such as Snow, Mink, Frost and Latte provide an aesthetic that is natural yet refined, while Mocha, Ash and Steel are dark and moody colours that suit contemporary design schemes where a sleek and stylised look is desired.
- **Rating:** A fine sheer with a lustrous finish, ATOMIC's 296cm continuous width, Oeko-Tex certification and self-weighting characteristics ensures it is ideal for drapery purposes in both commercial and residential settings.
