AURELIUS

SOFT AND STYLISH FOR A SERENE AESTHETIC - AURELIUS by Warwick

Soft and inviting, AURELIUS is a transitional, plain drapery that creates relaxed and serene spaces. Light in weight and elegant in nature, this collection brings a stylish and beautiful aesthetic to casual and refined interiors.

- **DESIGN:** Piece dyed with fine chenille yarns, AURELIUS is a plain weave which embodies a blend of polyester and cotton fibres used to create a subtle, two-tone effect for gentle character. Dry to the touch and slightly textured, AURELIUS offers a variation in colour that allows for softer interior styles to be achieved.
- **APPLICATION:** From serene, to casual settings, AURELIUS takes on a soft aesthetic, creating calm atmospheric spaces. Continuous with a generous 300cm wide width and Oeko-Tex certification, this collection effortlessly creates beautiful, stylish drapery — as well as Roman blinds, cushions and lampshades — with its versatile and gentle colour palette.
- **COLOURWAYS:** With a sophisticated palette of 16 colours that were developed specifically for drapery, AURELIUS features key neutrals, as well as muted hues, that can easily be incorporated to a new or existing residential or commercial space. Classic neutrals can be found in Snow, Vanilla, Ecru and Pumice, while Fog, Pebble, Shale and Shadow bring darker alternatives. For subtle pops of colour, Blush, Sandstone, Sage and Sky are perfect options as they won't dominate an interior and its scheme.
- **RATING:** This continuous, 300cm wide width drapery is perfect for creating a relaxed environment due to its gentle colour palette and two-toned finish. With the added benefit of Oeko-Tex certification, AURELIUS is an ideal drapery collection for both modern and casual spaces alike.
