

WARWICK

PUSHING THE BOUNDARIES OF CONVENTIONAL AESTHETICS WITH COLOUR AND TEXTURE - BUCKLEY by WARWICK

BUCKLEY invites tactile interaction with its sensory composition of micro-boucle creating a unique identity that will set apart interior styling with a robust, yet contemporary result.

- **DESIGN:** There is an edginess to BUCKLEY with its futuristic-inspired weave where the subtleness of a trend-driven boucle has been transformed with a textured loop-yarn bubble effect. It has a speckled appearance that is both visually intriguing and texturally balanced, providing an outcome that is nuanced and modern.
- **APPLICATION:** Designed with commercial application in mind, BUCKLEY provides the opportunity to transform a blank canvas requiring an interplay of contrast through texture and colour. It has an industrial character with flair that can be applied in high traffic commercial zones, break out rooms, schools as well as residential spaces, with the ability to create a dynamic design solution perfect for partnering with pops of coloured vinyl or plush, velvet-look fabrics.
- **COLOURWAYS:** The BUCKLEY colour palette is an energised collection where variegated, dual-tone and tri-tone options have been produced. It covers all bases from tonal neutrals to bold combinations across blues, purples, reds, yellows and greens. The randomised colouring is playful in colourways such as Punch, Berry and Chili, but more sophisticated in Denim, Carbon and Chocolate where statement colours can be introduced through alternate textures and materials.
- **RATING:** Heavy Commercial with Oeko-Tex certification, AS1530.3 fire rating and Halo easy-clean characteristics.
