

WARWICK

AN ECCENTRIC COMPILATION OF ENDURING TEXTURES - BRANDO by Warwick

Overview: BRANDO brings together a myriad of new favourites to create a one-stop-shop of enticing texture and colourful design. This heavy commercial upholstery collection is fire rated and Oeko-Tex certified, adding strength and character to an array of residential and commercial spaces. BRANDO's mix and match nature and geometric inspiration encompass a universal selection of interiors - from timeless and traditional to eclectic and contemporary.

Design: This assortment of transitional textiles features nine small and mid-scale geometric patterns which coordinate back with the dependable dual-purpose plain VICTORY. In four colour schemes, FRASIER features an irregular spot and BOWMAN a railroaded chevron. Colour carriers HOLBROOK and MARTEL offer a small multi-coloured geometric and an irregular stripe, respectively. ACAPULCO and DUNARD add classic geometrics with a touch of art-deco inspiration and LAWRENCE a mid-scale lineal spot. BOWER brings a multi-coloured stripe of varying widths and BRANDO completes this collection with a classic damask. Individually or combined, each design brings a unique and textured nature to an extensive range of interior styles.
