

WARWICK

STITCHING ARTISTIC STORIES THAT ARE BOLD, INSPIRED AND VIBRANT – FRIDA by WARWICK

A collection designed with artistic expression channeling the energy of a creative soul with vibrant pattern and symbolic motifs. FRIDA invites you to drape your space in art that is powerful and beautiful.

- **DESIGN:** FRIDA captures the dynamic interplay between abstract botanical elements and the precision of realism, creating a design that is striking and imaginative. Bold strong shapes and patterns are layered to create a spatial depth with playful brush strokes and native interpretations providing a visual rhythm, fine details merge into a surreal interpretation that is whimsical yet grounded.
- **APPLICATION:** A dual-purpose design that will visually stimulate residential spaces where its playful charm can be applied to furniture, drapery and soft furnishing accents or used to create a stand-out feature as the hero of the space. The dryness of the fabric will allow for pairing with various textures and natural materials such as timber and burnished brass adding depth and interest while blending within both contemporary and traditional styles.
- **COLOURWAYS:** FRIDA has four distinct colour palettes that use muted, sophisticated tones to compliment bright pops of rich colour. Whether a cooler or warmer colour scheme is required, FRIDA has an option to suit. Playful oranges and citruses coordinated with pops of plum and magenta can be seen in DUSK, STORM uses tones of grey and blue with brighter hues of purple, JUNGLE is designed using an assortment of plant-life greens from soft sage to bold lime and FIESTA is a carnival of colour using yellow, purple, and aqua to create a fun and energetic palette.
- **RATING:** Part of the Warwick Naturally brand containing a minimum of 70% natural fibres.
- **CURATE:** A partnership with pattern where artists, styles and techniques can be explored using technology to inject printed designs that deliver on performance and personality.
