

L I N I A

THE PERFECT BALANCE BETWEEN TEXTURAL NUANCE AND ELEGANCE

Epitomising natural luxury, PESARO is an exquisite blend of subtle texture and rich, pigmented colour to enhance interiors with an aesthetic that is luxurious, natural and relaxed.

Design: Crafted in Turkey from 100% linen, PESARO is a plain, yarn-dyed drapery that brings sophisticated texture and a soft touch. Featuring a continuous 300cm width, its sunbaked hues offer a subtle tonal appeal, while the horizontal texture enhances interior tranquility with a soothing aesthetic.

Application: Whether adorning large windows in a modern living room or a classic bedroom, PESARO not only has the appeal of elegance, it also provides a layer of privacy where it can be lined for complete blackout or used on its own to create a serene ambiance where direct light will diffuse beautifully. Best installed with a puddle to accentuate its linen characteristics.

Colourways: PESARO presents a timeless palette of 14 colorways, from classic tones to deeper pigmented options for a bolder statement. The yarn-dyed texture creates a subtle tonal variation with refined slubs, particularly noticeable in richer colors like Terracotta, Denim, and Olive. Core neutrals include Snow, Ivory, Linen, and Sand, while cool tones are represented by Onyx, Storm, and Silver.

Rating: Expertly crafted to provide customised privacy for your interiors while being free from harmful substances with Oeko-Tex certification.
