DESA. HALSTON. KALI. MONGOLIA. NARLA. ULUWATU

A JOURNEY THROUGH TIME WHERE IMPERIAL JUNGLE MEETS CONTEMPORARY DESIGN – DESA by WARWICK

Masterfully blending the opulence of imperial jungle with a revival of ancient tapestry, intricate textures and geometrics. DESA combines the past with a modernised grandeur that complements a contemporary vision with a tactile sophistication.

- **DESIGN:** The DESA collection has been curated with six distinct, coordinating qualities, each tapping into ancient techniques and transposing those into a modernist outcome. MONGOLIA is a ritzy twist on animal print that has a high and low construction to create a dimensional sensory experience. DESA embodies the beauty and luxury of a tapestry weave featuring rolling tigers and ornamental waves. ULUWATU and KALI are designed with a checkerboard style that is raw and primitive while maintaining a contemporary character. Coordinates for the collection can be found in HALSTON, a decadent velvet look jacquard and NARLA a richly textured basket weave.
- **APPLICATION:** Whether a space is looking for a dry, plush, chunky or decorative aesthetic, DESA has an abundance of design characteristics that will provide an artisanal opulence to be used on mass across feature furniture and drapery, or as highlights featured with bolder colour schemes and tactile finishes.
- **COLOURWAYS:** Overall, the color palette for DESA is a harmonious blend of ancient warm and cool tones with an emphasis on earthy colors, dark accents and a touch of metallic inspired indulgence. Versatile neutrals, enriched earthy browns and regal blues compliment softer tones of cream and sand with bold ebony adding a sophisticated luxury.
- **RATING:** A versatile decorative collection DESA is Oeko-Tex certified with various qualities ranging from general domestic to heavy commercial.
