SPRING | SUMMER 2023/2024

At Weave, we are passionate about design. Our collections are influenced by the world around us, mirroring what we love, and how we love to live, from relaxed outdoor coastal living, to contemporary urban life.

Inspired by travels to beloved places and born out of the desire to bring a designer quality into soft furnishings, Weave is a collection of unique cushions, lush throws, timeless rugs and the beautifully sumptuous French flax linen bedding.

Attention to detail and quality are at the heart of every Weave creation, making them not only beautiful, but a truly luxurious addition to your home.

VILLA UMBRA

Be transported to the coastal villages of the Cinque Terre, where pops of colour scatter the cliffs of charming villages. Tones emulate the rich earth of coastal bays and traditional terracotta tiling, while warm golden sands are the canvas to the bronzed, sun-kissed, holiday makers and locals alike. Earthenware defines the textural elements that can be seen within this collection, while softer lines emulate the ripples left in the sand from lapping waves on the shore. Villa Umbra is the embodiment of the casual yet decadent European summer lifestyle with a rustic charm that creates bespoke and unique pieces.

*DISCLAIMER - This product is one-of-a-kind, and no two pieces are identical, weaving and/or embroidery patterns might differ from the image.

CAMPANIA

Explore the natural forms and textures of Campania, inspired by the Pertosa Caves. Lineal structures and clay toned rock formations are emulated through the tactility and pattern in the weave structures. The Tirreno arm of the Mediterranean seas is the backdrop to the beige and earthy hues, which sets the foundation of this classic palette. Undyed yarns are representative of the natural earth through the collections eco-concious design sensibilities. The pops of crisp black colour accents elevate this traditionally minimalist, but contemporary aesthetic.

SANTA POLLINI

Escape to the idyllic coastal sun drenched daze of a European holiday. Where a soft morning breeze blows along the shore, and the warmth of the honey glazed sands give a golden aura view with a mimosa in hand. The olive trees nestled along the paved boardwalks, provide a soft sage hues vista, evoking a muted tropical palette. While organic geometrics mirror the naturally occurring elements in local flora and fauna. A sophisticated, and versatile twist on a cabana aesthetic, reminiscent of a relaxed yet modern coastal dream.

EUROPEAN LINEN

Using the highest-grade yarns sourced from France and Italy, our linen range is developed using precise specifications for weight and density, so the quality is soft and supple but also dense enough to be long-wearing. Using a blend of luxurious finishes for a soft vintage feel, these cushions will only get softer with time.

Thoughtful details within the range include the centre split panel with topstitch and concealed zipper, flanged edges, cut linen weaves, and stripes and checks, with colourways and sizes to suit all interiors.

BED LINEN

A luxurious linen offer that is superior in its softness and ideal for cultivating the perfect cocoon for an uninterrupted night's sleep.

Our Ravello Linen bedding range is crafted from the highest quality French Flax Linen that is then prewashed and Aero finished for a unique and luxuriously soft, relaxed feel.

The earthy, timeless palette is available in individual bedding components, encouraging a mix and match aesthetic for complete creativity. Nature-inspired and made for the contemporary world, this machine-washable, Oeko-Tex certified linen will only improve over time.

ARTISAN HANDWOVEN RUGS

Our rugs are hand woven in India using weaving skills and techniques that have been handed down through generations of artisan weaving families. They are beautiful in their individuality and durability.

As a proud member of the Care & Fair organisation, we work closely with our makers to create premium products, while contributing positively to their local community by promoting education and social responsibility in the rug weaving industry.

RUG RANGE

SOULFUL ALFRESCO OUTDOOR | INDOOR

Dreaming of a sun-drenched maze of culture and architecture, Soulful Alfresco transports us to the dramatic Mediterranean landscape that holds a wealth of historic colours, artisanal craftsmanship and intricate pattern. Refined textures refresh memories of coastal escapes where priorities change to the simple things in life.

The Weave outdoor qualities handle all the heavy lifting by offering UV stabilised colourfastness. Soft textures that have been treated with both anti-mould and stain repellents, fight against mould and allow easy maintenance, make this outdoor range perfect to mix indoor and out for seamless decorative schemes.

THE WEAVE DIFFERENCE

All our rugs are hand-woven on looms in northern India. Rugs have been woven in this area for generations, using skills handed down through artisan families. Our hand woven rugs are beautiful in their individuality and durability.

We choose to use predominantly natural fibres for their beauty and longevity in our indoor range. Our rugs are made from wool, cotton, viscose, bamboo silk and jute.

Every one of our indoor rugs has cotton backing and a braided edge on the underside to provide strength and stability, keeping your rug square and in shape.

We work closely with our suppliers to create premium products for our customers, and positive outcomes for the local communities where they are made.

We are proud members of Care & Fair, an international organisation that aims to eliminate illegal child labour in rug weaving areas. Our contributions help to improve the living standard of families and communities in these regions. All our rugs show the Care & Fair logo to indicate our commitment to this cause and a percentage of our sales are contributed directly to this organisation.

GENERAL RUG CARE

Treat spots and spills immediately with warm water and paper towel. Do not scrub rug as it may cause permanent pile damage. If stain persists, contact a professional rug cleaner as soon as possible.

It is best to vacuum your rug before any dirt is embedded, ideally twice a week in the first few months with low suction power.

All Weave rugs are made from natural fibres that can result in shedding/pilling. This is a natural characteristic and the removal of any loose fibres can be rectified with regular vacuuming with a good quality vacuum cleaner with a flat head attachment to avoid agitating the fibres. The amount a rug sheds or pills can alter due to traffic, moving furniture, vacuuming or other mechanical agitation. Rugs should be regularly rotated to ensure even wear.

Due to changes in pile and weave direction shading may occur and is a natural characteristic of carpets and rugs.

Strands of fibre working their way to the surface of the rug is also a normal occurrence as the fibres settle. Pop ups can either be trimmed or pushed through to the base of the rug. Never pull-out threads as this can lead to holes appearing. Sun exposure for extended periods of time may cause fading and items should avoid direct sunlight and be rotated to minimize colour change and damage.

We recommend that indoor rugs are used with an underlay, this will help to prevent the risk of dye transfer to the undersur-face, rug movement and to help protect timber flooring.

For detailed cleaning instructions, please visit our website.

RUG PLACEMENT & SUITABILITY

A well-proportioned rug can tie an entire room together, but it can be tricky to get the size and placement right for each individual space. A rug should be large enough to anchor your furniture whilst leaving some of the floor exposed. When in doubt, go for the biggest size possible. When choosing a rug, it pays to consider the area that the rug is for and determine the suitability based on the pile and fibre type. We have put together this guide for you to navigate this choice and select a rug that is perfect for your space – room by room.

Our suitability recommendations have also been highlighted next to each rug quality throughout this catalogue however we also recommend that all Weave rugs are treated by our partner Premium Surface Protection to ensure stain resistance and longevity.

Bedroom

Bedrooms are an ideal space to add a rug to give a luxurious and warm feel to the room. Rugs in bedrooms are ideally placed under the bed to give a soft and cosy underfoot feel when getting in and out. A rug in your bedroom will also soften the space and provide a comforting layer of warmth. Generally, bedrooms are lower traffic areas that means rugs with higher pile or more delicate fibres are entirely suitable here.

Living Room

A rug in your living area will create a warm and inviting space, particularly if you have hard flooring. It will provide a visual anchor as well as add comfort and warmth for those that like to sit or play on the floor. Often it is wise to choose a rug first and then build the interior scheme around the colour and texture. For a living environment the best rugs will be warm and inviting – you can choose a plush and textured rug or flatter jute all dependent on the look and feel that you want. As furniture is not generally moved often in a living space – a higher pile or more decorative weave technique will be acceptable. But this really depends on your family and how the space is used.

Entrance | Hallway

When considering a rug for a hallway or entranceway you must consider these spaces as higher traffic areas where people are generally wearing footwear. As well as being the area where outside foot traffic is often bringing the exterior in ie. wet or dirty footwear. With this in mind – a harder wearing and lower pile rug is the best choice. A rug in these areas will also soften the sound of footsteps so adding a rug to your hallway will provide a sound barrier to the rooms off the hallway. We recommend our 100% jute or lower pile wool blends.

Dining Room

Dining areas tend to be higher traffic spaces with multiple chairs moving in and out regularly and often spills and crumbs falling onto the rug. This is why we recommend avoiding anything with a high pile and suggest a flat weave rug. It is also important to choose a rug size that will fit both the table and the chairs. Rugs that are too small can trip up the dining chairs when pulled out - not only does this become dangerous but also can damage the edges of the rug. You want to avoid a high pile or any rugs that have a raised or uneven weave technique for their crumb catching deep crevices. Jute and low pile wool blend rugs are the best choice for your dining area.

RUG PROTECTION SYSTEM

At Weave, we proudly align with companies that have the same passion, drive and ethical standards in the product and service they offer. This is why we exclusively recommend Premium Surface Protection and their rug protection formulas MicroSeal & Fiber ProTector. They are experts in their field on all things relating to fibre and surface protection. Once you have purchased and received your Weave rug, we recommend you contact Premium Surface Protection directly for a free quote to treat your purchase, so that your investment can continue looking like the day when you first unrolled it. (Nationally available across Australia and New Zealand)

MicroSeal & Fiber ProTector are unique permanent solutions that combines protection against stains and damaging UVA and UVB rays. Additional benefits include antistatic characteristics, flame and fume retardants as well as eliminating mould, mildew and bacteria. Treated fibres are up to 60% more resistant to wear and abrasion, because soil must wear through the protection before causing wear on the fibres themselves.

For further information see our information sheet online or contact Premium Surface Protection quoting WEAVEHOME for your free quote and chamois sponge on treatment.

PRODUCT

Each Weave piece is custom made, meaning no two items will be the same. Irregularities in materials, fabrics or prints are characteristic of the manufacturing process, and are an integral part of the design. As such, there may be slight markings or variations in appearance (including colour, pattern, size or finishing) which are technically unavoidable and/or intentional.

Our rugs are individually handmade and woven, as such size can alter by 5% from the dimensions ordered. We also make every effort to ensure there is minimal colour variation between sample and stocked, however due to the natural fibres this is be expected (5% is the standard for carpet colour). Minor variations may also occur due to the characteristics of being a artisan hand woven rug, these include weave thickness and alignment and should be considered a feature.

CUSHION INSERT GUIDE

At Weave we like to give our customers choice. This is why we provide two options of inserts: microblend or traditional feather. Both choices make our beautiful Weave cushions even more luxurious and comfortable in your home. Please note our inserts are not outdoor grade but perfect for patio and partially shaded areas.

Microblend Features

- 50/50 blend of microfibre & polyester for a soft feather-like feel
- 100% Cotton Japara cover
- Generous fill weight
- Plump and pert, soft and supportive
- Vegan friendly
- Allergy & odour-free
- Made locally
- Machine washable and may be tumble dried

Traditional Feather Features

- 100% white duck feather
- Quality 100% Cotton downproof Japara cover
- Generous fill
- Fully certified including:
 - Cleaning and Sterilisation process for feather/down
 - Responsible Down Standard Certificate
 - Non Live-Plucked products Guarantee
- Relaxed and easily mouldable
- Warm and insulative
- Air well before use, regular fluffing required
- Machine Washable and may be tumble dried

OUTDOOR

The Weave outdoor qualities handle all the heavy lifting by offering UV stabilised colourfastness. Soft cushion textures that have been treated with both anti-mould and stain repellents, fight against mould and allow easy maintenance,

make this outdoor range perfect to mix indoor and out for seamless decorative schemes.

To extend the longevity of your outdoor range we recommend storing items in winter when not in use. Both cushions and rugs should be brought indoors in extreme weather conditions and should not be exposed to heavy rain or stagnate water.

Our outdoor rug range has been specifically woven using premium recycled polyester for its durability and its ability to withstand the external elements with as little impact on the environment as possible. Please note outdoor rugs are purposely unbacked to encourage drainage and offer quick dry characteristics.

BEDDING

Our luxurious linen offer is superior in its softness and ideal for cultivating the perfect cocoon for an uninterrupted night's sleep. Crafted from the highest quality flax linen from Normandy, France, that is then prewashed and Aero finished for a unique and luxuriously soft, relaxed feel.

The earthy, timeless palette is available in individual bedding components, encouraging a mix and match aesthetic for complete creativity. Nature-inspired and made for the contemporary world, this machine-washable, Oeko-Tex certified linen will only improve over time.

Sizes

All items are made to Australian standard sizes, with an industry standard 40cm mattress depth to allow for mattress toppers.

	Size	Cover	Fitted Sheet	Flat Sheet
	SB Single	✓	✓	✓
	KS King Single	✗	✓	✓
	DB Double	✓	✓	✓
	QB Queen	✓	✓	✓
	KB King	✓	✓	✓
	SK Super King	✓	✓	✓

Pillowcases are available in Standard, King and European sizes, sold as pairs.

Features

- Pre-washed and aero finished for extra softness
- Weave bedding has a tighter weave structure with a high quality smooth finish.
- Oeko-Tex certified.

- Quilt covers come with internal ties to secure the quilt internally - meaning the quilt won't move around inside the cover while you're sleeping.
- Weave logo buttons complete the cover closure.
- Fitted sheets have extra thick elastic banding to ensure a perfect fit.
- Pillowcases have a sophisticated top-stitched flanged edge.
- All products are packaged in matching reusable linen bags.

CARE

Please refer to your care label that will be located on all soft goods by a hang-tag or label sewn on the seam of your item. Rug care instructions can be found on the underside of your rug at time of delivery. Copies of current range care instructions and further care and maintenance can also be found at weavehome.com.au and weavehome.co.nz.

Always refer to your care label before attempting ANY cleaning. Treat spills and stains as soon as possible to make stain removal easier and minimize the risk of permanent damage.

Our advice is given in good faith and should not be considered a guarantee. If in any doubt, always consult a professional cleaning company.

Weave pieces are intended for interior use only unless stated as outdoor. Sun exposure for extended periods of time may cause fading and items should be rotated to minimize colour change and damage.

Cushions

Feather and fibre filled cushions should be shaken and /or fluffed regularly to maintain their desired appearance. A light vacuum with reduced suction every 6 months will help with dust control.

Bedding

Our linen bedding range can be machine washed on a gentle cold cycle with like colours. It is best to remove as soon as the wash cycle is complete and shake to release creases.

Fibre fluffing should not be considered a fault and will settle with washing and use. It is recommended that customers wash all linen purchases before use to reduce fluffing.

For detailed cleaning instructions, please visit our website.

COLOUR REFERENCE

Please note all photography in this catalogue is intended as a visual representation only. Although care is taken to ensure images are not misrepresented, colours are not exact matches due to variance in printer standards and monitor

calibration.
* Within the catalogue indicates new colour additions.
