

Oeko-Tex

Oeko-Tex is the internationally standardised criteria directory for testing harmful substances issued by the International Association for Research and Testing in the Field of Textile Ecology (Oeko-Tex). Our fabrics featuring the 'Confidence in Textiles' label have been tested for harmful substances and are found to comply with all required criteria without exception. Look for the Oeko-Tex sticker on your hanger sample. This label also represents that the fabric supplier complies with the Oeko-Tex Standard 1000 certification for environmentally friendly production facilities.
